BRING THE LEGENDARY
BRITISH SOUND
TO YOUR RECORDS.

LIMITED
TIME
OFFER

We encourage you to stay home and keep creating by offering you a \$1000 “Together We Create” plugins voucher. We hope to make the start of your Antelope journey an inspiring one, by giving you the chance to choose effects with a total value of \$1000 and get them all for free. Now is the time to learn how to use as many of our hardware-modeled studio effects as possible. See all activities centered around helping you stay creative during these challenging times, [here](#).

GET the British Sound FX bundle and a \$1000 “Together We Create” plugins voucher with every purchase of a Discrete Synergy Core Interface

Offer ends
May 31, 2020

Promo Prices

Discrete 4 Synergy Core
\$999

Discrete 8 Synergy Core
\$1495

How it works

1. After purchase, the 36 Synergy Core FX will be automatically added to your user account and will be available to use in the Control Panel.
2. The British Sound FX Bundle will have to be manually assigned to your new audio interface from the Manage tab in the Antelope Launcher.
3. Upon activation of the device you will receive an email with a unique coupon code for the \$1000 “Together We Create” plugins voucher*.

*Plugins include AFX2DAW and all effects in the expandable FX library of the device, except Auto-Tune Synergy.

The British Sound FX Bundle

The **BAE 1073MP** is a mic preamp modeled after a gold-standard British-design analog unit. It operates as a digital circuit component modeling an analog one in real-time and with the sound of the original – with the most accurate lows you can hear. Use it in your mix or monitor with it in your recording session – the choice is yours.

Courtesy of premier British audio engineering is the **VEQ-4K ORANGE**. The first model in this legendary line of EQ modules remains a classic and is still in use by many engineers. This one is not just one more module strip revision, but a hardware rarity with a sound of its own.

The **Liverpool compressor** sounds rich, wide and thick. Run acoustic guitars through it and you'll hear them as clear as possible, yet with a more full-bodied sound and soul. A great mid-range healer, Liverpool will add a desirable smoothness to guitar leads, synths and vocals.

COMP-4K-STRIP is a compressor modeled after legendary British solid state processing that manages to sound amazing while taking the heavy lifting away from your CPU. The 4K is the large-format mixing console of 80s rock and synthpop, and perhaps one of the most revered desks ever. Now coming with your new interface.

What can you achieve with the Discrete Synergy Core interfaces?

Record dry or wet and monitor in real-time while placing zero load on your CPU. The **Synergy Core processing** module helps reduce buffer size and improve your recording system's stability.

Pro-class conversion by virtue of our high-spec AD converters for artifact-free recording. This is paired with Antelope's signature Acoustically Focused Clocking technology to reduce jitter and provide distinct instrument separation.

Discrete transistor ultra-linear preamps offering ultra-low noise and distortion with 65 dB gain. Accomplished without adding unnecessary color to your sound.

Cross-platform connectivity – Thunderbolt™ 2 and USB 2.0 with custom-built Mac and Windows drivers for low-latency performance.

All Synergy Core FX included in the pack

Mic Preamps

- Gyraf Gyratec IX
- BA-31

Equalizers:

- VEQ-1A
- VEQ-HLF
- VMEQ-5
- Clear Q

Compressors

- FET-A76
- Stay-Levin
- VCA160
- X903
- PowerFFC

Utility Effects

- Auraverb
- PowerEX
- PowerGate
- Guitar Amps:
- Plexi 59 (UK)
- Bass SuperTube VR
- BurnSphere (DE) Lead
- Marcus II (US) Lead
- Modern (US) CH3
- Darkface 65 (US)
- Overange 120 (UK)
- Rock 75 (UK)
- Rock 22.10 (UK)
- Top30 (UK) Bright
- Tweed Deluxe (US)

Guitar Cabinets

- Darkface 65 2×12
- Top30 2×12
- Modern 4×12
- Green 2×12
- Vintage 4×12
- Green 4×12
- Caliper 50 1×10
- Bluelux 1×12
- Clst 1×12
- England 4×12
- Bass Tube 1×15
