

# Symphony Desktop

## Complete FX Bundle Now Included

Along with the Symphony ECS Channel Strip and Clearmountain's Spaces plugins, customers who purchase Symphony Desktop for \$1495 (usd) will now receive the Pultec EQP-1A, Pultec MEQ-5, Opto-3A, ModEQ 6 and ModComp Native and DualPath DSP plugins.

Total value of all included plugins = \$943

### Start Date: February 25th

Beginning February 25th, customers registering a new Symphony Desktop will receive an activation code for all included plugins. Customers must follow the step-by-step setup and registration instructions:

<https://apogeedigital.com/support/symphony-desktop>

Please Note: Customers that purchased Symphony Desktop on or after January 1st, 2021 are entitled to the Complete FX Bundle by re-registering from the link above.
