ART OF KEYS

SPECIAL OFFER

For a limited time, KeyLab MkII and KeyLab Essential come with even more incredible, award-winning virtual instruments from Arturia's legendary software collection.

To activate your free software, simply register at www.arturia.com after your purchase.

Free software with KeyLab MkII

Analog Lab, Mini V, Piano V, Stage-73 V, B-3 V, Ableton Live Lite

Free software with KeyLab Essential

Analog Lab, Mini V, Stage-73 V, Ableton Live Lite, UVI Grand Piano Model D

SEAMLESS INTEGRATION

Every one of the incredible software instruments included in this offer works perfectly with Arturia's controllers. Every knob, fader, button, switch, and pad automatically assign themselves to key parameters so you feel like these legendary synths and keyboards are right at your fingertips.

SOFTWARE YOU'LL ACTUALLY USE

Sorry, there's no Balinese Gamelan, multi-sampled bass guitars, or one-trick effects here. Just museum-quality, legendary synths, organs, and pianos brought back to life by Arturia's award-winning modelling technology. "All killer, no filler", as the saying goes.

THE BEST OF THE BEST

Each of these amazing bonus instruments is taken directly from the Arturia V Collection, a compendium of iconic instruments that shaped the face of music for a full century. Analog Lab alone contains over 6,500 incredible-sounding, instantly usable presets. Why settle for less?

Limited time offer, from Jul 1 2019 to Sep 30 2019

WORDS OF WISDOM

FutureMusic
Technique and technology for making music

"A premium quality keyboard and controller that manages rather successfully to deliver for both DAW and live hardware users alike..."

"The KeyLab Essential controller plays amazing and is super easy to use. With its lightweight construction it's absolutely proven to be road-ready!"

Sven Martin
