

***Buy any UAD-2 Custom DSP Accelerator Package & Choose an Extra Plug-In!***

*Hurry, ends December 31st, 2017!*

For more than 15 years, UAD Powered Plug-Ins have delivered the world's most authentic analog hardware emulations for Mac and Windows. Powered by UAD-2 DSP Accelerator hardware, you get classic studio sound that would be difficult or impossible to achieve with native recording systems.

UAD-2 Custom DSP Accelerator packages contain Universal Audio's patented processing card, Analog Classics Plus Plug-In Bundle, and an additional custom software bundle that lets you choose any three UAD plug-in titles at registration.

***Now through December 31st, buy and register any new UAD-2 OCTO or QUAD Custom DSP Accelerator Package (PCIe Card or Satellite Thunderbolt, FireWire, or USB) you'll get to pick a fourth plug-in FREE! You'll get your free plug-ins upon product registration.***
